About IRRAS

IRRAS AB (Nasdaq First North Premier: IRRAS) is a publicly-traded, commercial-stage medical technology company focused on developing and commercializing innovative solutions for brain surgery. The company's initial product, *IRRAflow*[®], addresses the complications associated with the current methods of managing intracranial fluid by using a dual lumen catheter that combines active irrigation with ongoing fluid drainage. *IRRAflow* received FDA clearance in July 2018.

Regularly during treatment, the *IRRAflow* catheter is automatically flushed to prevent common catheter occlusions from forming. Because *IRRAflow* is a completely closed system, it is designed to reduce the documented infection risk of these procedures. Additionally, *IRRAflow* incorporates ICP monitoring and uses a proprietary software to regulate treatment based on desired pressure levels.

With its unique product portfolio, protected by property patents and patent applications, IRRAS is well positioned to establish a leadership position in the medical device market. IRRAS maintains its headquarters in Stockholm, Sweden, with corporate offices in Munich, Germany, and San Diego, California, USA. For more information, please visit www.rras.com
